

Immediate Deployment Resource Rate Schedule

Immediate deployment applies when work must commence within 24 hours of authorization or requires Barren Tree Solutions to redirect personnel and equipment or displace previously scheduled work. Immediate-deployment services are billed on a time-and-materials basis, portal to portal, using the applicable rates listed below.

Clients are billed only for the personnel, equipment, vehicles, materials, and supporting resources deployed or reasonably committed to the response. Normal-business-hours deployments are billed for actual time without resource minimums; deployments outside normal business hours are subject to the applicable minimums. Standard arborist tools and equipment are included in the applicable personnel rates unless specifically identified otherwise.

Category	Resource	Rate	Unit	After-Hours Minimum

Additional Pricing Notes

Miscellaneous	Current Pricing / Policy
Standard Arborist Tools and Equipment	Personnel rates include the ordinary PPE, climbing equipment, standard rigging equipment, chainsaws, hand tools, and blowers customarily required for the assigned work. Specialized rigging systems, unusual consumable materials, and separately deployed equipment may be billed as additional resources T&M when required.
Additional Support	Certain specialty equipment may be provided by third party vendors. When subcontracted equipment is authorized, it will be invoiced at the vendor's then-current rates and minimums, plus a coordination/management fee of 5% to cover scheduling, supervision, and administrative handling. Rented equipment, when required, will be invoiced at the prevailing rental rate at the time of procurement, including applicable taxes, fees, fuel usage in addition to any emergency labor required to obtain, transport, clean (as necessary), and return the equipment.
Mobilization and Demobilization	Portal-to-portal billing rounded to the nearest half hour.
After-Hours response	Same resource rates with minimum service requirements.
